

**Chapter 1: Getting Started**

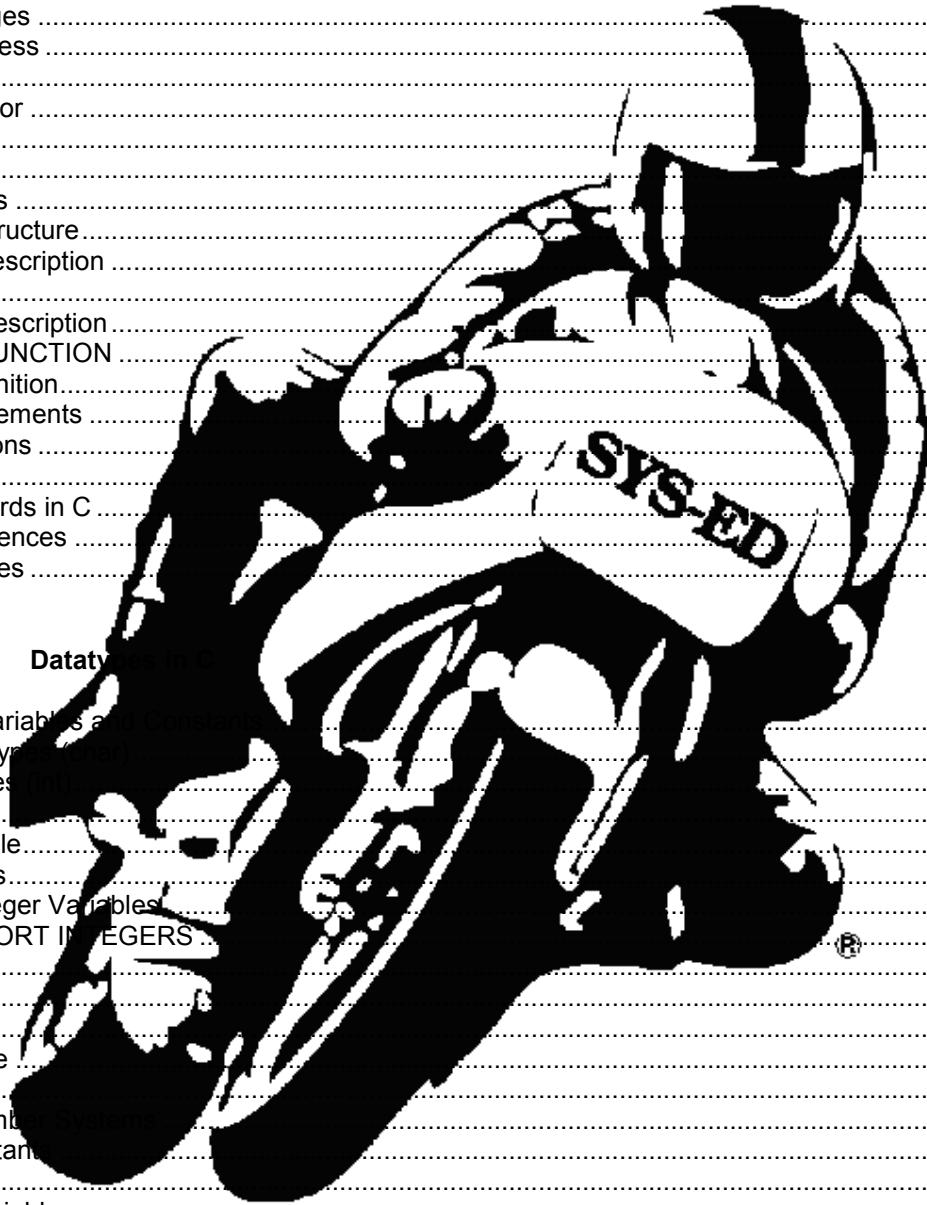

Origins .....	1
Use of C.....	2
C Applications .....	3
C Features.....	4
Program Stages .....	6
Compile Process .....	7
Preprocessor .....	8
C Preprocessor .....	9
Compiling .....	10
Linking .....	11
Subdirectories .....	12
C program Structure.....	13
C program Description .....	14
C Functions .....	15
C Function Description .....	16
The main() FUNCTION .....	17
Function Definition.....	19
Program Statements .....	20
Output functions .....	21
Identifiers .....	22
Reserved Words in C .....	24
Escape Sequences .....	25
Comment Lines .....	26

**Chapter 2: Datatypes**

Datatypes, Variables and Constants .....	1
C Character type.....	2
C Integer types.....	3
Variables.....	4
Integer variable.....	5
Variable types.....	8
Declaring Integer Variables.....	10
Long and SHORT INTEGERS .....	11
Integers.....	12
Float type.....	13
Float.....	14
Float Example .....	15
Double Type .....	16
Alternate Numbering .....	18
Special Constants .....	20
Constants .....	21
Initializing Variables.....	23

**Chapter 3: Operators and Expressions**

Operators and Expressions.....	1
Arithmetic and Assignment Operators .....	2
Assignment and While Loop.....	3
Unary and Binary Operators .....	5
Compound Operators.....	7
Increment Operator .....	10

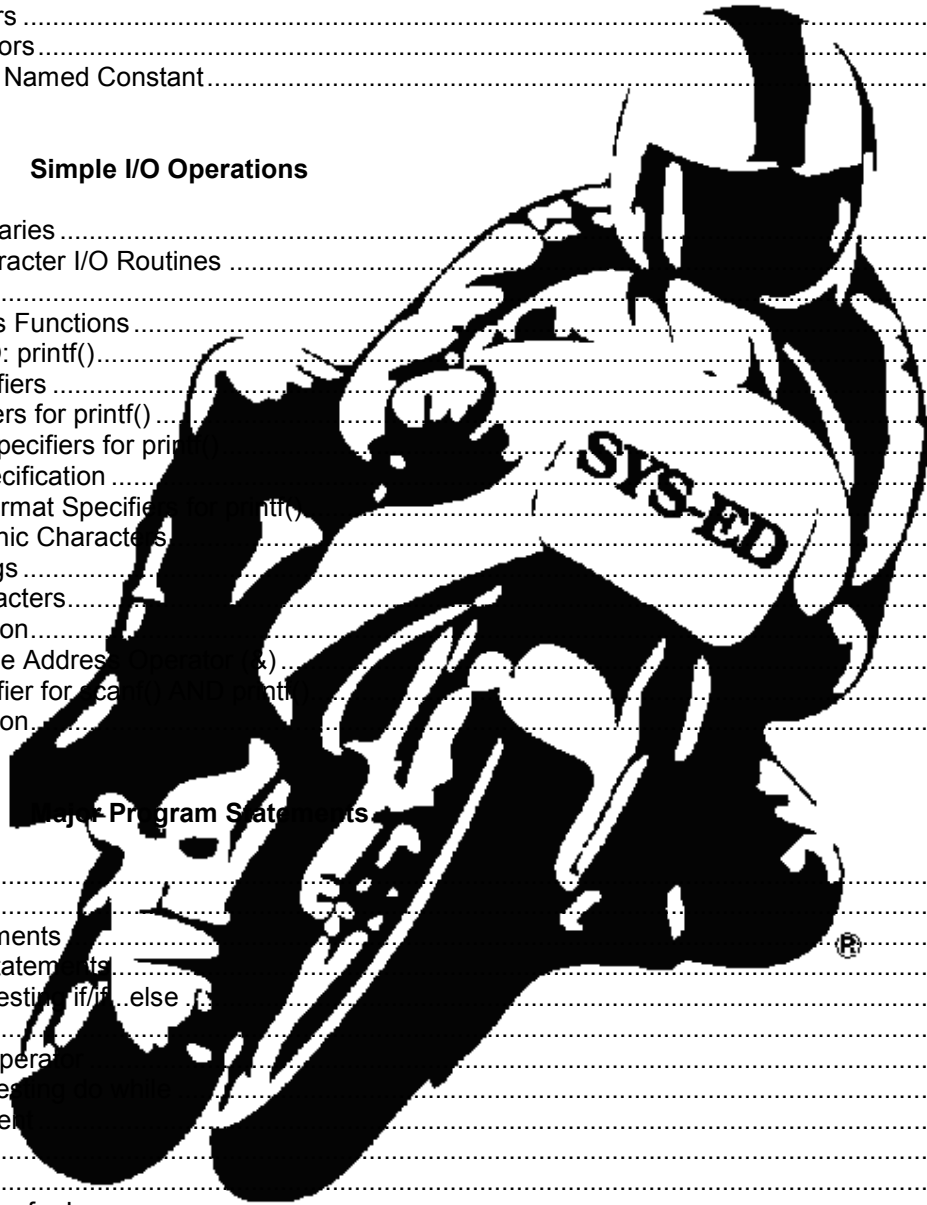

Precedence and Associativity ..... 13  
 Precedence and Associativity in C Statements ..... 14  
 Datatype Lengths ..... 16  
 Relational and Equity Operators ..... 17  
 Logical Operators ..... 18  
 Bitwise Operators ..... 19  
 Shift Operators ..... 20  
 Unary Operators ..... 21  
 For Loop and Named Constant ..... 22

**Chapter 4: Simple I/O Operations**

Standard Libraries ..... 1  
 Terminal Character I/O Routines ..... 2  
 String I/O ..... 5  
 Gets and Puts Functions ..... 6  
 Formatted I/O: printf() ..... 8  
 Format Specifiers ..... 10  
 Flag Characters for printf() ..... 11  
 Field Width Specifiers for printf() ..... 13  
 Precision Specification ..... 17  
 Field Type Format Specifiers for printf() ..... 20  
 Printing Graphic Characters ..... 21  
 Printing Strings ..... 23  
 Printing Characters ..... 24  
 scanf() Function ..... 25  
 scanf() and the Address Specifier ..... 26  
 Format Specifier for scanf() ..... 28  
 scanf() Function ..... 29

**Chapter 5: Control Program Statements**

Loop Control ..... 1  
 Statements ..... 2  
 Simple Statements ..... 3  
 Compound Statements ..... 4  
 Conditional Testing: if/else ..... 5  
 Switch/Case ..... 7  
 Conditional Operator ..... 11  
 Conditional Testing ..... 14  
 While Statement ..... 16  
 for Statement ..... 19  
 for Loop ..... 20  
 Structure of the for Loop ..... 21  
 Multiple Statements In Loops ..... 23  
 Multi Statement Loop Body ..... 25  
 Drawing a Line with a Graphics Character ..... 26  
 while Loop ..... 27  
 ASCII Revisited ..... 28  
 continue Statement ..... 30  
 break Statement ..... 31

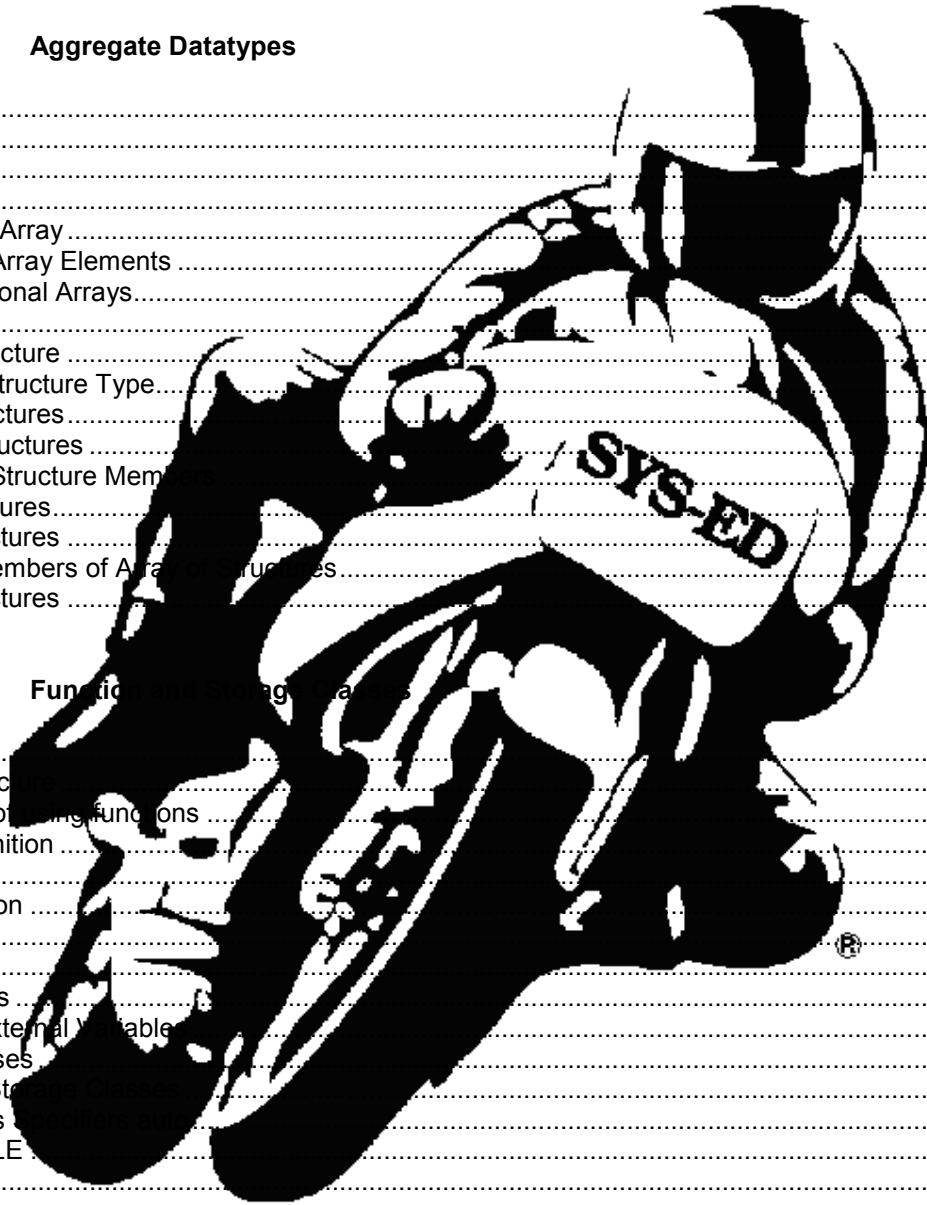

return() Statement ..... 32  
null Statement ..... 34  
Labeled and goto Statements ..... 35  
Break Command ..... 36  
BREAK and Continue Commands ..... 37

**Chapter 6: Aggregate Datatypes**

Arrays ..... 1  
Declarations ..... 2  
Storage ..... 3  
Arrays ..... 4  
Initializing an Array ..... 6  
Referencing Array Elements ..... 8  
Multi Dimensional Arrays ..... 12  
Structures ..... 15  
A Simple Structure ..... 16  
Declaring a Structure Type ..... 17  
Defining Structures ..... 18  
Initializing Structures ..... 19  
Referencing Structure Mem ..... 20  
Nested Structures ..... 21  
Array of Structures ..... 22  
Accessing Members of Array Structures ..... 23  
Array of Structures ..... 24

**Chapter 7: Functions and Aggregate**

Functions ..... 1  
Function Struct ..... 2  
The benefits of using functions ..... 3  
Function definition ..... 4  
Declaration ..... 6  
Call to Function ..... 8  
Call by Value ..... 10  
Parameters ..... 12  
Scoping Rules ..... 16  
Visibility of External Variable ..... 17  
Storage Classes ..... 18  
summary of Storage Classes ..... 19  
Storage Class ..... 20  
auto EXAMPLE ..... 21  
static ..... 22  
extern ..... 23  
register ..... 24

**Chapter 8: Pointer Processing Arrays and Strings**

Pointer Variables ..... 1

Pointer Values and Addresses ..... 2

Declaration of Pointers ..... 3

Use of Pointers ..... 4

Initialization of Pointers ..... 5

Pointer Notations ..... 7

Living Dangerously ..... 8

Pointer Arithmetic ..... 9

Precedence and Pointers ..... 11

Pointers and Character Strings ..... 12

String Null Terminator ..... 13

String Functions ..... 14

Strings Initialized as Pointers ..... 15

Arrays of Pointers ..... 17

**Chapter 9: Functions, Pointers, and Aggregate**

Functions ..... 1

Passing Arguments/Parameters ..... 2

Function Declaration ..... 3

Passing Arrays as Function Parameters ..... 5

Passing Structures as Function Parameters ..... 6

Command-line Parameters ..... 7

Line Command args ..... 8

**Chapter 10: Basic**

stdio.h Library ..... 1

Constants ..... 2

File Pointers ..... 3

Using the fseek() Function to Control File Pointers ..... 4

File Structure ..... 5

fopen() Function ..... 6

fopen() Function ..... 7

TEXT and Binary ..... 8

fclose() Function ..... 9

fread and fwrite Functions ..... 10

Character and Numeric File ..... 13

fputc() Function ..... 14

fprintf() Function ..... 15

fscanf() Function ..... 16
