

Chapter 1: Running a Simple Job

Objectives..... 1-0:1-2

Lesson 1: Terminology and Concepts

| | | |
|-----|---------------------------------|-----------|
| 1 | JCL: Job Control Language | 1-1:2 |
| 1.1 | z/OS Operating System | 1-1:3-4 |
| 2 | z/OS Resource Management..... | 1-1:5 |
| | Task | 1-1:6 |
| | Address Space..... | 1-1:7 |
| | JES | 1-1:8 |
| | JES2 and JES3..... | 1-1:9 |
| | JCL Spool..... | 1-1:10 |
| | Print Spool..... | 1-1:11 |
| | Access Method..... | 1-1:12 |
| | Dataset | 1-1:13 |
| 3 | z/OS Job Processing..... | 1-1:14-15 |
| | Enter the System..... | 1-1:16 |
| | Begin Processing | 1-1:17-18 |
| | End Processing | 1-1:19 |
| 4 | Job Control Language..... | 1-1:20 |

Review Questions: Terminology and Concepts..... 1-1Q:1-3

Lesson 2: JCL Syntax

| | | |
|-----|---------------------------------|-----------|
| 4.1 | JCL Statements..... | 1-2:2-4 |
| 4.2 | JCL Syntax..... | 1-2:5-7 |
| 4.3 | Naming Rules..... | 1-2:8 |
| | Valid Names..... | 1-2:9 |
| 5 | JOB Statement | 1-2:10-11 |
| 5.1 | JOB Statement Format | 1-2:12-13 |
| | One Job - One Step | 1-2:14 |
| | One Job - Multiple Steps..... | 1-2:15 |
| 5.2 | Accounting information | 1-2:16-17 |
| 5.3 | Programmer Name..... | 1-2:18-19 |
| 5.4 | CLASS Parameter..... | 1-2:20-21 |
| 5.5 | MSGCLASS Parameter | 1-2:22-23 |
| 5.6 | Continuing JCL Statements | 1-2:24-25 |
| 6 | EXEC Statement - Execute..... | 1-2:26 |
| 6.1 | EXEC Statement Format | 1-2:27 |
| 6.2 | PGM Parameter | 1-2:28 |
| 6.3 | ACCT Parameter..... | 1-2:29-30 |
| 7 | DD Statement | 1-2:31 |
| 7.1 | DD Statement Format | 1-2:32 |
| 7.2 | ddname Field | 1-2:33-37 |

Review Questions: JCL Syntax..... 1-2Q:1-3

Lesson 3: Special DD Parameters

| | | |
|------|-----------------------------------------------|-----------|
| 8 | Spooled Datasets | 1-3:2-3 |
| 8.1 | * Parameter | 1-3:4-6 |
| 8.2 | SYSOUT Parameter..... | 1-3:7-10 |
| 8.3 | Dummy Parameter | 1-3:11-12 |
| 9 | Utility Programs | 1-3:13-14 |
| 9.1 | IEBGENER Utility..... | 1-3:15-17 |
| 10 | JCL Listings | 1-3:18-19 |
| 10.1 | Separator Sheet | 1-3:20 |
| 10.2 | JES Log..... | 1-3:21 |
| 10.3 | JCL Statements..... | 1-3:22 |
| 10.4 | JCL Statement Listing..... | 1-3:23 |
| 10.5 | Allocation and Termination Messages | 1-3:24-27 |
| 10.6 | Utility Messages | 1-3:28 |
| | Review Questions: Special DD Parameters | 1-3Q:1-3 |
| | Workshop: Running a Simple Job..... | 1-W:1 |
| | Exercise 1 | 1-W:2-3 |

Chapter 2: Using Existing Datasets

| | | |
|--|-----------------|---------|
| | Objectives..... | 2-0:1-2 |
|--|-----------------|---------|

Lesson 1: Coding a Simple DD Card

| | | |
|------|-----------------------------------------|-----------|
| 1 | Disk and Tape Datasets - Existing | 2-1:2-3 |
| 2 | DD Statement Parameters - Basic..... | 2-1:4-5 |
| 2.1. | DSNAME or DSN Parameter | 2-1:6-9 |
| 2.2. | DISP Parameter | 2-1:10-22 |

| | | |
|--|------------------------------------------------|----------|
| | Review Questions: Coding a Simple DD Card..... | 2-1Q:1-3 |
|--|------------------------------------------------|----------|

Lesson 2: Additional Operands

| | | |
|------|------------------------------------|-----------|
| 2.3. | UNIT Parameter | 2-2:2-5 |
| 2.4. | VOLUME or VOL Parameter..... | 2-2:6 |
| 3 | Concatenating Datasets..... | 2-2:7-9 |
| 4 | Tape Datasets | 2-2:10-11 |
| 4.1. | Tapes with Multiple Datasets | 2-2:12-14 |
| 4.2. | Multiple-volume Datasets..... | 2-2:15-20 |
| 4.3. | Label Formats - Processing | 2-2:21-25 |
| 5 | Tape Operations - Improving | 2-2:26-29 |
| 5.1. | Requesting Multiple Units | 2-2:30 |
| 5.2. | Deferred Mounting | 2-2:31-32 |

| | | |
|--|---------------------------------------------|----------|
| | Review Questions: Additional Operands | 2-2Q:1-3 |
|--|---------------------------------------------|----------|

Lesson 3: Catalogs and Utilities

6 Catalogs 2-3:2

6.1 Finding Datasets with a Catalog 2-3:3

6.2 Catalog Maintenance: DISP Parameter Options 2-3:4-9

6.3. IEHLIST Utility Program: Listing the Catalog 2-3:10-11

7 Utility Control Statements..... 2-3:12

7.1. LSTCTLG Control Statement..... 2-3:13-19

8 IEHPROGM Utility Program: Catalog Maintenance..... 2-3:20-21

8.1. IEHPROGM Control Statements..... 2-3:22-25

Review Questions: Catalog and Utilities 2-3Q:1-2

Workshop: Using Existing Datasets 2-W:1

Exercise 1 2-W:2

Exercise 2 2-W:3

Chapter 3: Creating Datasets

Objectives..... 3-0:1-2

Lesson 1: Creating a Tape Dataset

1 Creating Datasets 3-1:2

2 Tape Dataset Creation: UNIT Parameter..... 3-1:3

2.1 Dataset Naming 3-1:4-7

2.2 Disposition Options 3-1:8-12

2.3 Retaining a Tape without Rewinding 3-1:13-15

Review Questions: Creating a Tape Dataset..... 3-1Q:1-3

Lesson 2: Coding DCB Information

2.3 Retaining a Tape without Rewinding 3-2:2-6

2.4. DCB: Data Control Block 3-2:7-28

Review Questions: Coding DCB Information 3-2Q:1-3

Lesson 3: Creating Disk Datasets

3 Disk Datasets: Creating 3-3:2

3.1. Disk Datasets: Naming 3-3:3-8

3.2. Disk Parameter Differences 3-3:9-14

3.3. Disk Structure and Organization 3-3:15-17

3.4. Allocating Disk Space 3-3:18-29

3.5. Calculating Space Requirements..... 3-3:30-32

3.6. Blocksize: Choosing..... 3-3:33-35

Review Questions: Creating Disk Datasets 3-3Q:1-3

Lesson 4: Disk Utilities

| | | |
|-----------|----------------------------------------|----------|
| 4 | Utilities to Maintain Datasets..... | 3-4:2 |
| 4.1. | VTOC: Listing..... | 3-4:3-12 |
| | Review Questions: Disk Utilities | 3-4Q:1-3 |
| Workshop: | Non-Sequential Datasets | 3-W:1 |
| | Exercise 1 | 3-W:2-3 |

Chapter 4: Non-Sequential Datasets

| | |
|-----------------|---------|
| Objectives..... | 4-0:1-2 |
|-----------------|---------|

Lesson 1: Creating and Using Partitioned Datasets

| | | |
|------|----------------------------------------------------------------|-----------|
| 1 | Methods for Organizing Data | 4-1:2 |
| 2 | PDS: Partitioned Dataset Organization..... | 4-1:3-5 |
| 2.1. | Partitioned Datasets: JCL to Use | 4-1:6-11 |
| 2.2. | Partitioned Dataset: Creation..... | 4-1:12-17 |
| 3 | IEHLIST Utility Program | 4-1:18-21 |
| 4 | IEBCOPY Utility Program..... | 4-1:22-42 |
| 5 | IEHPROGM Utility Program..... | 4-1:43-45 |
| | Review Questions: Creating and Using Partitioned Datasets..... | 4-1Q:1-3 |

Lesson 2: Creating and Using VSAM Datasets

| | | |
|-----------|---------------------------------------------------------|-----------|
| 6 | VSAM Datasets | 4-2:2 |
| 6.1 | VSAM Concepts..... | 4-2:3-8 |
| 6.2 | JCL: VSAM Datasets | 4-2:9-10 |
| 7 | IDCAMS: VSAM Utility | 4-2:11-13 |
| 7.1 | JCL: IDCAMS..... | 4-2:14 |
| 8 | IDCAMS Control Statements | 4-2:15-17 |
| 8.1 | LISTCAT Control Statement: Listing the Catalog | 4-2:18-24 |
| 8.2 | DEFINE Control Statement: Creating Datasets..... | 4-2:25-34 |
| 8.3 | DEFINE Control Statement: Deleting Datasets | 4-2:35-36 |
| 8.4 | PRINT Control Statement: Printing Datasets..... | 4-2:37-41 |
| 8.5 | REPRO Control Statement: Copying Datasets..... | 4-2:42-44 |
| | Review Questions: Creating and Using VSAM Datasets..... | 4-2Q:1-3 |
| Workshop: | Non-Sequential Datasets | 4-W:1 |
| | Exercise 1 | 4-W:2-3 |
| | Exercise 2 | 4-W:4-5 |

Chapter 5: Running Complex Jobs

Objectives..... 5-0:1-3

Lesson 1: Limiting Resources

| | | |
|------|---------------------------------------------|-----------|
| 1 | Processor Resources..... | 5-1:2 |
| 1.1. | Execution Time: Limiting..... | 5-1:3-6 |
| 1.2. | Virtual Storage: Specifying..... | 5-1:7-9 |
| 1.3. | JCL Syntax: Checking without Execution..... | 5-1:10-11 |
| 1.4. | Job Execution: Delaying..... | 5-1:12-14 |
| 2 | Passing Information to a Program..... | 5-1:15-17 |
| | Review Questions: Limiting Resources..... | 5-1Q:1-3 |

Lesson 2: Advanced Techniques

| | | |
|------|--------------------------------------------|-----------|
| 3 | DD Statement - Special Functions..... | 5-2:2 |
| 3.1. | Source of a Program: Identifying..... | 5-2:3-9 |
| 4 | Program Dumps..... | 5-2:10 |
| 4.1. | SYSUDUMP..... | 5-2:11 |
| 4.2. | SYSABEND..... | 5-2:12 |
| 4.3. | SYSMDUMP..... | 5-2:13-16 |
| 5 | Backward References..... | 5-2:17-18 |
| 5.1. | DSN Referbacks..... | 5-2:19-21 |
| 5.2. | VOL Referbacks..... | 5-2:22-25 |
| 5.3. | DCB Referbacks..... | 5-2:26-29 |
| 5.4. | DCB Models..... | 5-2:30-32 |
| | Review Questions: Advanced Techniques..... | 5-2Q:1-3 |

Lesson 3: Conditional Steps and Restarting

| | | |
|------|---------------------------------------------------------|-----------|
| 6 | Conditional Program Execution..... | 5-3:2 |
| 6.1. | Return Codes..... | 5-3:3-5 |
| 6.2. | COND Format: Basic..... | 5-3:6-10 |
| 6.3. | Testing a Specific Step..... | 5-3:11-12 |
| 6.4. | Testing Multiple Return Codes..... | 5-3:13-16 |
| 6.5. | Testing for an Abend..... | 5-3:17-20 |
| 7 | Restarting a Job..... | 5-3:21-22 |
| 7.1. | Step Restarts..... | 5-3:23-28 |
| 7.2. | Checkpoint Restarts..... | 5-3:29-30 |
| | Review Questions: Conditional Steps and Restarting..... | 5-3Q:1-3 |

| | | |
|-----------|---------------------------|-------|
| Workshop: | Running Complex Jobs..... | 5-W:1 |
| | Exercise 1..... | 5-W:2 |
| | Exercise 2..... | 5-W:3 |
| | Exercise 3..... | 5-W:4 |

Chapter 6: Procedures

Objectives.....6-0:1-2

Lesson 1: Coding Procedures

1 Procedures: Purpose and Facilities6-1:2

2 Procedures: Catalogued and In-stream6-1:3-4

2.1. Executing Procedures6-1:5-8

2.2. Procedure Expansion.....6-1:9-10

3 Overriding Parameter Values.....6-1:11

3.1. EXEC Overrides6-1:12-14

3.2. DD Overrides6-1:15-33

3.3. Referbacks6-1:34-35

3.4. Symbolic Parameters6-1:36-38

4 Writing Procedures.....6-1:39

4.1. Writing Simple Procedures6-1: 40-42

5 In-stream Procedures.....6-1:43-44

5.1. DDNAME for In-stream Data6-1:45-49

6 Symbolic Parameters6-1:50-54

6.1. Defaults - Providing.....6-1:55-56

7 Procedure Writing Guidelines6-1:57-58

Review Questions: Coding Procedures6-1Q:1-3

Lesson 2: Utility to Print Libraries

8 Utilities for Procedures6-2:2

9 IEBPTPCH: Printing and Punching6-2:3

9.1. JCL for IEBPTPCH.....6-2:4

9.2. PRINT and PUNCH Control Statements.....6-2:5

9.3. RECORD Control Statement6-2:6-12

9.4. MEMBER Control Statement6-2:13-16

9.5. Other IEBPTPCH Capabilities6-2:17

Review Questions: Utility to Print Libraries6-2Q:1-2

Workshop: Procedures6-W:1

Exercise 16-W:2-4
