

Chapter 1: ISPF/PDF Environment

TSO: Definition and Purpose	1
TSO: Advantages	1
TSO: Featureset	2
ISPF/PDF	3
ISPF/PDF Advantages	3
ISPF/PDF: Featureset	4
TSO, SPF, ISPF, and ISPF/PDF: Evolution	5
ISPF	6
3270 Keyword: PF Keys	7
Logon Routine	8
Main ISPF Menu	9
ISPF/PDF: Navigation	10
Bypassing Panels	12
Moving from Panel to Panel	13
Returning from Lower Level to Higher Level Panels	14
Moving through ISPF	15
Action Bar Pull-down Menus	15
Action Bar Pull-down - Functionality	16
TSO Help and ISPF/PDF Tutorials	17
ISPF/PDF Tutorials	17
ISPF Settings	19
Panel Action Bar Choices	21
Settings	22
ISPF: Keys	24
Enabling and Disabling Keylists	25
ISPF: Point and Shoot Fields	26
ISPF Enhancements	27
Underscores in Entry Fields	27
Queueing on a Dataset	27
Terminating ISPF	28
Logoff	29

Chapter 2: TSO Commands

TSO/E Commands	1
Positional Commands	2
Keyword Commands	2
Syntax and Usage Rules	3
Entering Commands	3
Dataset - Types	4
Dataset Naming - Rules	5
Dataset Naming Conventions	5
Dataset Allocation - Based on an Existing Dataset	6
Commands	7
LISTCAT Command	7
DELETE Command	7
LISTDS Command	8
SEND Command	9
TSO E/Commands - Summary	10

Chapter 3: Browsing

Browse Menu - Accessing	1
BROWSE - ENTRY PANEL - Option 1	2
BROWSE - Member	3
VIEW versus BROWSE	4
Integrity Exposure	5
Performance Degradation	5
BROWSE - Data Display Panel	6
LOCATE Command	7
COLUMNS and RESET Commands	8
FIND Command	9
HEX Command	10
DISPLAY Command	11
VIEW Command	11
BROWSE Command	11

Chapter 4: Editing - 1

EDIT Command - Enhancements	1
Panel Changes	2
Presenting and Demonstrating Commands on Screen	3
Accessing the EDIT Menu	4
EDIT - ENTRY PANEL - Option 2	5
EDIT - Terminating	7
EDIT - Member Selection List Panel Scrolling	8
LOCATE locate-parm	9
SORT Command	9
EDIT - Data Display Panel	10
EDIT - Line Commands: Basics	11
Inserting/Deleting Lines	11
Repeating Lines	13
Copying and Moving Lines	15
Additional EDIT Line Commands	17
X - Exclude Lines	17
Input Masks - Defining	19
Tab - Controlling	20
Column Shift	22
Data Shifting	23
Boundary Columns - Defining	24
Conversion and Destination Commands	25
LC and UC Commands	25
MD Command	25
O Command	25

Chapter 5: Editing - 2

EDIT - Primary Commands	1
Profile and Reset Command	1
Locating Specific Lines	2
Finding Character Strings	4
Changing Character Strings	6
New Dataset or Member: Creation	8
Creating a Member from the Member List Screen	9
Creating a Member from a Member in the Same Library	10
Creating a Member in Another Library	10
Creating a New File - Screen 3.2	12
Merging Data from External Datasets	14
COPY and MOVE Commands	14
Submitting Data to the Job Stream	15
Text Preparation	16
Text Split	18
Text Flow	19
Primary Commands: Text and Data Management	20
Primary Commands: Screen Environment	23

Chapter 6: Examining Output

Browsing Output Listings	1
OUTLIST Utility - Option 3.8	2
SDSF	4
Split Screen	6

Chapter 7: Dataset and Library Maintenance

Accessing the Utilities Menu	1
Utility Selection Menu - Option 3	1
Utilities	2
Library Utility - Option 3.1	3
DATASET Utility - Option 3.2	5
OPTION: Allocate New Dataset	5
OPTION: Library Options	8
MOVE/COPY Utility - Option 3.3	9
Dataset List Utility - Option 3.4	12
Initial View	13
Line Commands	14
Hardcopy Utility - Option 3.6	15
SUPERCE - Compare Datasets - Option 3.12	16
Output Mode	16
SUPERCE - Compare Datasets, Extended Dialog - Option 3.13	19
Compare Type	19
Listing Type	20
SEARCH - FOR: Option 3.14 Search Datasets for Strings of Data	21

Chapter 8: Command Procedures and Dialogs

CLIST: Facilities and Functionality	1
CLIST Datasets and Libraries	2
ALTUIB	2
CLIST Syntax	3
Operators and Expressions	4
Invoking an Existing Command Procedure	5
Sample CLIST and Executing the CLIST	5
Command Procedure - Symbolic Values	6
Variables - Valid Names	7
READ Statement	8
Symbolic Substitution	8
PROC Statement - Passing Parameters	9
PROC with Positional Parameters	9
PROC - Using with Keyword Parameters	10
PROC - Sample	10
Control Variables	11
&SYSDATE, &SYSSDATE, and &SYSJDATE	11
&SYSTIME and &SYSSTIME	12
&SYSUID	12
Built-in Functions	13
&DATATYPE - Determining the Data Type of an Expression	14
&LENGTH - Determining and Expression's Length in Bytes	14
&SUBSTR - Defining a Substring	15
&SYSCAPS - Converting Character Strings to Uppercase Characters	15
Structuring CLISTS	16
Making Selections	16
Loops	17
CLIST Example - Simple	18
Command Procedure Statements	19
Dialog Management - Overview	20
ISPF Invocation	21
Function SEDPGM1B	24

Chapter 9: EJES

EJES Functions	1
Job Management	2
EJES Displays	3
Primary Selection Criteria	4
Sorting	4
Completion Codes	5
EJES Entry Panel in JES3	6
Primary Selection Criteria Filters	7
Navigation Commands	8
Search and Scroll Commands	9
Job Status Display	10
Commands: Job Display	11
